## PHYSICAL CAPACITY PROFILE® Testing System

PCP is designed to assist employers in preventing work place injuries by properly matching their employees' physical abilities to their new job. Utilizing state-of-the-art, proprietary software, the PCP machine completes a collection of multiple strength measurements in as little as 30 minutes with results available to employers within minutes.

### Benefits include:

- Absolute Objective data
- Match your employees' level of ability according to the Department of Labor before they start the job.
- Know what impairments your new hire will bring to the job!

*HCMH's Business Health Department will work to provide companies with services tailored to meet their individualized needs.*

*Our highly trained and caring professional staff has years of experience working with health promotion and prevention. We will address your workplace needs with a full range of healthcare services from preventive to post-treatment care.*

We're dedicated to helping you...

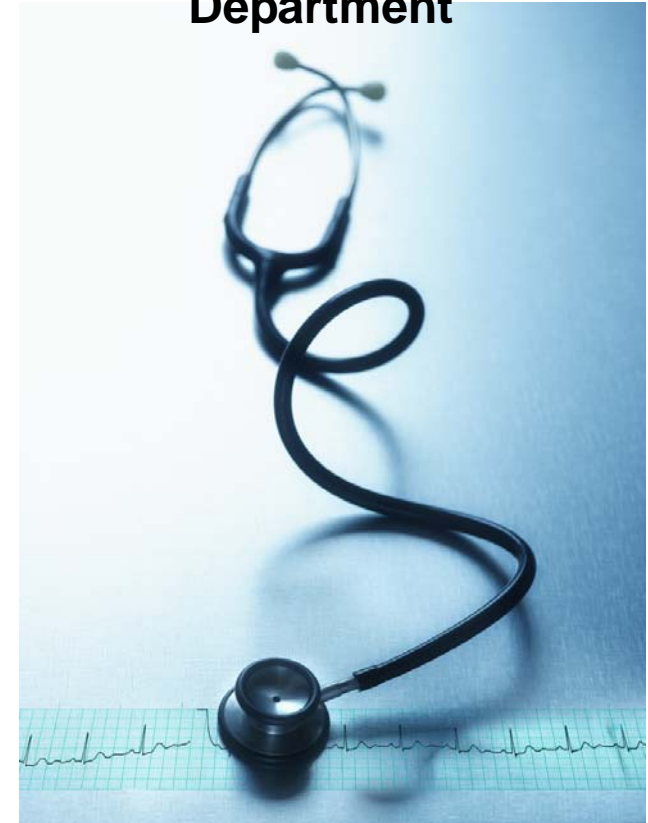

- Reduce healthcare costs and workers' compensation fees
- Increase productivity
- Reduce absenteeism
- Increase employee morale
- Maintain a healthy employee population
